

PRESS RELEASE**SKIDATA, Inc. announces the implementation of their 3M Asset Refreshment Program in Miami, Florida.**

Hillsborough, NJ March 24, 2017 **SKIDATA, Inc., a wholly owned subsidiary of SKIDATA AG is pleased to announce the implementation of their 3M Asset Refreshment Program by their partner, Consolidated Parking Equipment, in Miami, Florida.**

SKIDATA Distributor, Consolidated Parking Equipment, has just completed the implementation of the 3M Asset Refreshment Program at 444 Brickell Garage in Miami, Florida. The installation includes 3C Payment EMV on one Pay In Lane terminal, integration with one Power Pad exit cashier, and the FAPD first generation Pay on Foot.

This is an exciting phase in the process of beginning to transition these sites using SKIDATA's custom designed solutions. Alex Oliva, President of Consolidated Parking described his enthusiasm for this project, "This is a great opportunity to transition customers from the legacy [3M/Federal APD] equipment, to a more modern and up to date SKIDATA solution. It allows my customers to be PCI compliant once again. As well as give them options to upgrade in the future."

SKIDATA's 2015 purchase of 3M's Parking Business software (EFMS, ScanNet) and firmware, along with PARCS equipment drawings gave them exclusive rights to develop and produce 3M's parking products (formerly known as Federal APD). The 3M Asset Refreshment Program has been developed to offer existing sites the ability to run 3M / FAPD hardware with SKIDATA software (Parking.Logic) or migrate to SKIDATA hardware. This program extends the life cycle of current equipment and allows for sites to accept credit cards equipped with PA DSS validated terminals.

SKIDATA is passionate about its commitment to deliver superior, reliable, and trend setting solutions. We are ready to help our customers to unlock the power of SKIDATA.

About SKIDATA

SKIDATA is an international leader in the field of access solutions and their management. Almost 10,000 SKIDATA installations worldwide in major airports, municipalities, shopping centers, sports stadiums, ski resorts, trade shows, and amusement parks provide secure and reliable access and entry control for people and vehicles. Our access solutions empower our customers to drive their business forward. SKIDATA, Inc. (www.skidatausa.com) is a wholly owned subsidiary of the SKIDATA Group (www.skidata.com) which belongs to the publicly traded Swiss Kudelski Group (www.nagra.com), a leading provider of digital security solutions.
